

KIRF: I know the multiplication facts for the 7 times table.

This half term, the children will be learning to count in 7s and will learn the 7 multiplication and division facts; they should be able to recall these independently and automatically.

				They should also know the	Key Vocabulary:
7 x 1 = 7	$1 \times 7 = 7$	$7 \div 7 = 1$	$7 \div 1 = 7$	commutative	Factor, product,
7 x 2 = 14 7 x 3 = 21 7 x 4 = 28	$2 \times 7 = 14$ $3 \times 7 = 21$ $4 \times 7 = 28$	$14 \div 7 = 2$ $21 \div 7 = 3$ $28 \div 7 = 4$	$14 \div 2 = 7$ $21 \div 3 = 7$ $28 \div 4 = 7$	calculations: 7 x 8= 56 8 x 7=56	multiplication, dividend, divisor, quotient. What is 7 multiplied by 8? What is 9 times 7? 4 groups of 7 = 3 lots of 7= 7, ten times= 7 eights are
7 x 5 = 35 7 x 6 = 42 7 x 7 = 49 7 x 8 = 56	5 x 7 = 35 6 x 7 = 42 7 x 7 = 49 8 x 7 = 56	35 ÷ 7 = 5 42 ÷ 7 = 6 49 ÷ 7 = 7 56 ÷ 7 = 8	$35 \div 5 = 7$ $42 \div 6 = 7$ $49 \div 7 = 7$ $56 \div 8 = 7$	They should be able to answer these questions in any order, including missing number	
7 x 9 = 63 7 x 10 = 70 7 x 11 = 77 7 x 12 = 84	9 x 7 = 63 10 x 7 = 70 11 x 7 = 77 12 x 7 = 84	$63 \div 7 = 9$ $70 \div 7 = 10$ $77 \div 7 = 11$ $84 \div 7 = 12$	$63 \div 9 = 7$ $70 \div 10 = 7$ $77 \div 11 = 7$ $84 \div 12 = 7$	questions, e.g. $7 \times \bigcirc = 56$ or $\bigcirc \div 8 = 6$.	
What can this look like? Concrete, Pictorial Abstract:					

Activity ideas:

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.

Chants- Practice chanting the times tables.

Songs- YouTube- a variety of songs linked to multiplication facts.

What do you already know? – Your child will already know many of these facts from the 2, 3, 4, 5, 6 and 10 times

Create a game using 7 and 8 times table facts.

Double the 4 times tables – Multiplying a number by 8 is the same as multiplying by 4 and doubling.

 $6 \times 8 = 48$ because $6 \times 4 = 24$ and double that to get 48.

Test the Parent – Your child can make up their own tricky multiplication questions for you e.g. What is 7 multiplied by 10? They need to be able to multiply to create these questions.

Beat the clock- You have 10 seconds to answers as many questions as you can. Each correct answer will earn you one second of extra time. The game ends when the time runs out or an incorrect answer is given.

Multiplication race— Write the answers to the 7 times table on large pieces of card. Shout out a random 7 or 8 times table question and race your child to the right answer.

Websites:

<u>TTrockstars</u> Children all have their username and password to practice in the "Garage" and the "Arena".". If children use the **Jamming** section on the app, they can choose just the 7x table to focus on.

MyMaths Children will be set weekly home learning.
